

# VETAPHONE **WEB CLEANER**

# Specifications

Our series of Web Cleaners perfectly complements our existing portfolio of market-leading narrow web Corona Treaters.

Capable of being fitted to almost any printing press on the market, the intelligent design and use of high-quality elastomer contact cleaner rolls and perforated adhesive rolls ensures that any dry unattached particle, as small as one-micron, is efficiently removed from the web.

Available for single- or double-sided operation, our Web Cleaners are designed to ensure a high-quality end product.

VE2W 520	470 mm / 18.5 inches	629 mm / 24.7 inches	1189 mm / 46.8 inches
VE2W 620	570 mm / 22.4 inches	729 mm / 28.7 inches	1389 mm / 54.6 inches

\*Single sided available

Other sizes available upon request

# FEATURES

# BENEFITS

## Easy Side Access to Adhesive Rolls

Full side access to the adhesive rolls makes it easy for the operator to remove a section of the perforated adhesive roll sheets.

## Easy Service and Maintenance Access

The top opening of the Web Cleaner allows easy web threading and provides full access to the elastomer rolls for cleaning. The removable side cover offers easy access for maintenance.

## Stand Alone / Integration with iCorona Generator

The Web Cleaner coupled with the Vetaphone iCorona generator eliminates the need for any additional systems. This not only provides for easy installation, but also allows the press operator to access the machine status, provides an indicator for renewal of the adhesive sheets and all other relevant maintenance information.

## Self-locking Cartridges

The cartridges are secured in place with a self-locking system to ensure they do not slide out during operation.

## Quick Release

The quick-release system makes it easy to replace the adhesive rolls without the need for tools.

## Flexible Mounting

Capable of either back or base mounting, the Web Cleaner can be installed to suit all web orientations.

## Active Anti-Static System

The active anti-static system prevents re-contamination of the web after cleaning.

## Light Indicator

The Web Cleaner is equipped with an illuminated indicator that acts as the release button for the adhesive rolls, as well as indicating that the web cleaner is in operation.

## Satisfied Customers

# WORLD WIDE

“ As the principal manufacturer of narrow web presses in the western world, and a global market leader in flexo technology, it is essential that ancillary technology fitted to Mark Andy presses meets our own critical standards of performance and reliability. The quality of Vetaphone design and engineering makes them our preferred supplier of corona equipment for all Mark Andy presses in Europe. ”

Explains Managing Director (Europe) at Mark Andy, Mr. Tom Cavalco.
